Agency response

It is rare for an officer to know the race of a driver before a normal traffic stop. Although that statistic is not required, we track it. Only 0.009 percent of the time the officer knows the race before contact.

Agency response

The Bel-Nor Police Department provides police services through contractual agreement to the Village of Bellerive Acres and the City of Greendale. The data submitted for the Bel-Nor Police Department includes stops data for all three municipalities. Also, surrounding communities in the general area of our jurisdiction have much higher minority populations who utilize the two state highways through our jurisdiction.

Agency response

A few points about the traffic flow thru the City of Blackburn: 20 Highway runs directly through the city limits. Many semi trucks travel along 20 Highway to Marshall, Mo. and Higginsville, Mo. Many folks in the area travel to Kansas City and other cities using 20 Highway. Many folks travel to Tyson Meat Plant in Marshall for work and to Higginsville, Concordia and Kansas City to work. People from out of state also use 20 Highway to visit historic sites in the area.

Agency response

Columbia is a growing community with three large manufacturing companies (3M, Square D and Quaker Oats) and several smaller companies (American Air Filters and DANA to name a few). There is a large state university and two smaller colleges in Columbia. Columbia's daytime population is greater than any other time of day with commuting workers. There is a large shopping mall and Columbia is the conjunction of two major highways (I-70 and Highway 63). There are also five hospitals in Columbia (Ellis Fischel Hospital, University Hospital, Boone Hospital, Columbia Regional Hospital and the VA Hospital).

Agency response

We have 4 major shopping centers and 6 strip malls with a total of 172 retail stores and 10 banks. We have 2 interstate highways that access our city with approximately 170,000 vehicles per day per highway. Our daytime population is approximately 50,000 and our city is located next to the St. Louis County Courts, Jail, and Government Center. The Metrolink light rail system was completed with a substation in our city with an attached 10 story parking garage accommodating 1200 parking spaces. Currently under construction are 150 condos with 2 parking garages accommodating 480 parking spaces each with a 6 story hotel attached, all within our city limits.

Agency response

The Carthage Police Department would respectfully like to point out that we have many large industries in our city, including a nationally known poultry plant. These industries bring many good things into our area and we are proud to have them. However, many people that are contacted during traffic stops in our city are not legally in the United States. Carthage is attractive to non-legal citizens hoping to find employment. When these individuals cannot produce valid identification or drivers licenses, our arrest numbers and search incident to arrest numbers are skewed. In addition, a major state highway runs through our jurisdiction bringing many people of diverse backgrounds through Carthage.

Agency response

Our population, for purposes of this report, is shown at 36,159. That reflects the population of the city of persons ages 16 and over. Our disparity index regarding traffic stops of black motorists is 3.72. Reflecting that on a percentage basis, based on our population of African Americans residing in the City of Chesterfield, we stopped black motorists at a rate three times greater than white motorists. I feel it is important to point out that this can be somewhat misleading in that these calculations take into account only the African -American residential population and not the driving population. In my opinion, although the driving population figure is unknown, it would be a much more accurate number to work with. A major interstate dissects the city, and the Chesterfield Mall, Chesterfield Commons, and the industrial center around the Spirit of St. Louis Airport attract and employ many non-resident individuals. The city of Chesterfield is a major employment center for the Greater St. Louis area but has a low number of permanent African-American residents. The factors mentioned above will account for the number of traffic stops involving this very mobile minority driving population.

Agency response

The City of Clayton is the county seat for St. Louis County. It contains the courts, government offices, juvenile detention center and the St. Louis County Justice Center, which houses over 1,200 inmates. In addition, Clayton is the home of several major corporations and contains over 6.5 million square feet of office space and one million square feet of retail. It is estimated that over 80,000 people visit Clayton on a daily basis to work, shop, or do business. Most of those visiting Clayton reside in the St. Louis Metropolitan Area. Additionally, a number of major thoroughfares run through Clayton carrying commuters from various parts of the county requiring a significant amount of traffic enforcement: I-170, Forest Park Parkway, Hanley Rd., Clayton Rd., Brentwood Blvd., and Forsyth Blvd. Therefore, it is felt that, for the purposes of this study, the racial makeup of the population should be in direct proportion to that of the St. Louis Metropolitan Area. At the very least, the racial breakdown should be in line with that of St. Louis County as a whole, rather than the resident population of Clayton.

Agency response

The City of Gladstone contains three sizable apartment complexes along a major thoroughfare through the City that serves as the principal connection to U.S. Highway 169, a well-traveled freeway that connects Gladstone to the City of Kansas City, and links our City to the Kansas City International Airport. These three apartment complexes offer government-subsidized housing that contain a disproportionate percentage of minority tenants. The City of Gladstone is completely surrounded by urban Kansas City, MO. There are several apartment complexes located within Kansas City that are immediately adjacent to the City of Gladstone and appear to house significant percentages of minority tenants. Several of these apartment complexes are accessible only via Gladstone city streets, generating significant motor vehicle traffic by motorists - including minorities - through Gladstone. In addition, Gladstone experiences considerable vehicular traffic that originates or terminates within Kansas City and does not involve Gladstone residents or their visitors. The combination of all of the above attracts a higher percentage of motorists - including minorities - than the proportion of minority residents of the City would suggest. The Gladstone Public Safety Department has established policies to assure that minorities are not disproportionately subject to stops or arrests by our police officers. These policies are reinforced by active supervision of our law enforcement officers to assure that racial profiling or other discriminatory behavior does not exist.

Agency response

The City of Glendale is a bedroom community in the metropolitan area of west St. Louis County. We are within five minutes of four major shopping centers. We have one state highway with an average daily count of over 30,000 vehicles and two county arterial roads, both averaging over 10,000 vehicles per day, within our jurisdiction. We are within a half mile of Interstate 44, which allows for easy access to St. Louis and the Interstate System.

Agency response

The City of Hannibal has both the US 61 and US 36 Highways intersecting within its boundaries. In addition, Hannibal is known as "America's Hometown" and for "Mark Twain" which draws a sizable number of tourists annually. Considering all these factors demonstrates Hannibal's local population as related to race is an inaccurate representation of what local law enforcement officers encounter in the performance of their duties. The statewide population % concerning race is a more accurate representation of the populace officers interact with during the completion of their duties.

Agency response

The Independence Police Department is an internationally accredited Police Department that does not tolerate racial profiling. Officers receive annual training on cultural challenges and issues. This year, we purchased a program called "Law Enforcement Software Solutions" from Columbia, Missouri. This program is an accurate and accountable reporting of our traffic stops. Independence has a minority population that averages, according to the census report, approximately 2.38%. We do share our western border with Kansas City, Missouri, which has a minority population of 33.70%. Independence has numerous State and Federal Highways which run through our city. Independence has become a major entertainment city; with I-70 being so close to this area of shopping, restaurants and entertainment, our traffic from other areas has increased. Traffic counts of I-70 indicate a large amount of traffic from Kansas City to Independence and back, giving Independence a mobile minority population closer to that of Kansas City. Car stops of minority race in Independence was at 17%. We are committed to ensuring we maintain the accountability and integrity of this process which indicates the level of professionalism within the Independence Police Department.

Agency response

The Disparity Index shows 2.05 for black. The reasons for this are: Missouri Southern State University (with a large college population), U.S. 71 Highway and Interstate 44 (which are major thoroughfares in our jurisdiction), and Joplin Mall (many people travel to the area for shopping and entertainment).

Agency response

Disparity indexes have not fluctuated significantly since the data collection began in 2000. However, these numbers should be interpreted cautiously. Specifically, relying on the census population for ages 16 and over as a benchmark does not provide a realistic picture of the driving population in Kansas City, Missouri at any given time. There are several major thoroughfares that run through the city, including I-29, I-35, and I-70 that contain a large percentage of drivers not reflected in the static census population used for comparison purposes. Additionally, Kansas City is contained within a metropolitan population of approximately 1.9 million, which adds to the commuter population on the major thoroughfares. Also, when examining search rates, the probable cause/authority to search reasons should be considered. By design, the form on which the AG office submitted the summary report did not include the new category Stop Outcome "Other", which accounted for 5,873 stops. The Total Stops figure, however, includes stops associated with this new category. Lastly, KCPD views vehicle stop data collection as one of many tools to address the issue of racial profiling. Other tools in use by the department include training, community programs, and policies.

Agency response

Kirksville is home to two major universities whose enrollment data is not totally reflected in the census figure. Truman State University and Kirksville College of Osteopathic Medicine account for an additional 6,000 students/residents (in 2003, 16 percent of whom are identified as other than white, and 96 percent come from outside Kirksville, including at least 26 international students). Kirksville is located on one of the few major north-south state highways (Highway 63) that service northern Missouri and southern Iowa. 8,700 vehicles per day travel the highway into and out of town. Kirksville is the largest city for miles and is the cultural/economic hub for a very large area. This expands the pool of those not counted in the city's census information.

RACIAL PROFILING DATA/2007

Agency: Kirkwood Police Dept.

Population: 20,166

age 16 and over

Agency response

The city of Ladue, Missouri occupies 8.6 square miles in St. Louis County roughly bordered by Ladue Road to the north, Interstate 170 to the east, Old Warson Road to the south and Lindbergh Boulevard to the west. We have several major arterials that traverse the City of Ladue. Interstate 64 travels completely through the city from east to west and west to east. We also have Interstate 170 on the east side of the city. Clayton Road is a major four-lane east/west roadway and Ladue Road also carries a significant amount of traffic. Ladue's major roadways move through the central corridor carrying traffic from the City of St. Louis to and from the western suburbs. This central corridor shares this distinction with the northern corridor of Interstate 70 and the southern corridor of Interstate 44. As you can discern from the description above, there is a great deal of motor vehicle traffic constantly moving through our corporate limits which is comprised of a very small percentage of Ladue residents. With this thought in mind, the "racial disparity index" is totally without merit. The racial makeup of the City is not at all germane to the traffic enforcement that occurs on state and federal highways within our city. When you look at the racial mix of our traffic stops you find that 75% of the traffic stops are of white drivers and only 21% are of African American drivers. The racial disparity of 20.69 for African Americans does not portray an accurate picture.

Agency response

The local Population Percentage for Hispanics listed for our town is incorrect. It should reflect a number closer to 33%. Our town is bisected by state Hwy 127 and US Hwy 50. We are also a bedroom community for Tyson Foods, Rose Acres Egg Farms, and a construction boom on Whiteman Air Force Base. All these have a large contingent of Hispanics on their work forces. If you factor these variables into our stats, I believe you will find a closer representation of our true figures.

Agency response

This community has two state highways: MO 5 north and south and MO 6 east and west. We have a large pork processing plant, Farmland Foods, a division of Smithfield Farms, that employs more than 1000 people, many of whom may be Hispanic. There is above average turnover and the newcomers do not always understand or obey our traffic laws.

Agency response

Our higher than proportional incidence of stops of black and Hispanic citizens centers around the fact that there are 6 food processing plants within a 45-minute drive of Sedalia. The workers live in and around Pettis, Johnson and Saline Counties and drive to the plants daily. Tyson Foods of Dresden, Missouri is the largest food processing plant in Pettis County. These plants employ a large number of Hispanic and black workers. Many of the Hispanic workers are illegal aliens and as such do not appear on the census rolls. Along with this is the fact that the University of Central Missouri is located in Warrensburg, Missouri in Johnson County. A large number of day and evening students from surrounding counties commute to UCM daily. Vehicle stops by the Sheriff's Office are based on traffic violations observed, not the possible race of the drivers. The vast majority of the time the race of the people stopped is unknown until the vehicle is actually stopped. Searches are conducted based on the actions of the individuals stopped or incident to lawful arrest. Race is not a factor in deciding who will or will not be asked for consent to search or who will be searched incident to arrest. The contraband hit rates of 25 on black citizens searched and 16.67 for Hispanics speaks well for the instincts of the officers of the Pettis County Sheriff's Office. The arrest rate of 7.5 for black citizens and 40.54 for Hispanics indicates that the officers are performing based on probable cause not the race of the individual.

RACIAL PROFILING DATA/2007

Agency: Pevely Police Dept.

Population: 3,192

age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other

Agency response

While the population of Platte Woods is 402 per the racial profiling information included in the letter, we have a traffic count of over 84,000 vehicles traveling through our city every day. This would account for the disparity index being out of proportion to our population.

Agency response

Pleasant Valley, MO has two Interstates (I-35 and 435) and a truck stop. We do not write many tickets to the residences of Pleasant Valley -- the majority are to people who are going through the city. The State of Missouri told us there are approximately 70,000 cars a day passing through Pleasant Valley, MO on the interstates and exiting off for gas and other items.

Agency response

The City of Raymore, Missouri, maintains the only 24-hour Wal-Mart Supercenter in the entire south Kansas City metropolitan area. The Supercenter services a number of communities, such as Grandview, Raytown, and south Kansas City, all of which have a more racially diverse population than Raymore. It is the position of the Raymore Police Department that any disparities in the proportion of stops/proportion of population can be attributed to the fact that a large portion of the motoring public does not reside within the city limits of Raymore.

Agency response

The City of Richmond Heights is a 2.8 sq. mile city incorporated in 1913 located on the western boundary of the City of St. Louis. Richmond Heights has three miles of U.S. 64 (Highway 40) running directly through it. Highway I-170 runs north and south from U.S. 64 to the city limits of Clayton. Located in Richmond Heights is the Galleria shopping mall and the new Boulevard Shopping District. The Galleria Mall and the Boulevard generate approximately 11 million shoppers or visitors each year. Richmond Heights also borders the City of Clayton, which is the county seat for St. Louis County. Thousands of vehicles travel thru Richmond Heights on a daily basis due to its geographic location. Estimated daytime population of Richmond Heights is 26,000.

Agency response

The Riverside Department of Public Safety by policy and practice prohibits racial profiling. The latest census lists Riverside's population being less than 2,700. However there are factors which increase the driving population above what would be expected for a town with this population count. Those factors include: a daytime population which grows by 87%; the presence of a riverboat casino; bordering on two major metropolitan cities (K.C., MO and K.C., KS.); and state and federal highway routes traveling through the City with a daily traffic count approaching 300,000 vehicles.

Agency response

There is approximately a 20-mile stretch of interstate that runs from the north end of Scott County to the south end of Scott County. There is also a influx of Hispanic season workers during summer months.

Agency response

The City of Smithville is located at the intersection of U.S. Highway 169 and Missouri Highway 92, which connects Smithville to three interstate highways: I-29 to the west, I-35 to the east and I-435, which encircles Kansas City and is located just one mile south of the Smithville City limits. According to recent figures supplied by the Missouri Department of Transportation, approximately 3.9 million vehicles pass through the City each year. The volume of traffic is due to the proximity to the Kansas City metro area for jobs, the large number of families moving to the rural area, and recreational activities associated with the Smithville Lake area. Smithville Lake, which is located 100 feet from the Smithville City limits, is a 7,000-acre U.S. Army Corps of Engineers recreational lake with two public golf courses. The lake records in excess of one million visitors per year and an estimated 75,000 rounds of golf are played at the Paradise Point golf complex each year. Several events are held yearly at the lake including fishing tournaments, golf tournaments, and other major festivals through the year. A majority of the year the lake hosts several thousand campers and boaters that travel through the City on a daily basis. Additionally, the City of Smithville hosts an annual July 4th celebration, which historically has drawn an estimated 10,000 spectators into the City each year.

Agency response

I-70 runs through the entire City of St. Charles and essentially divides the city in half, north and south. The interstate is the main artery carrying daily commuter traffic from St. Charles and cities west of St. Charles to the Greater St. Louis Area. St. Charles contains two highly traveled state highways, 94 & 370, which also serve as main arterial routes as well as feeding I-70's local, regional and interstate traffic. State Hwy 364, to a lesser degree, impacts traffic volume in the city. St. Charles is the County Seat of St. Charles County and contains the County Jail, County Courts Building and all of the county's administrative offices. This greatly contributes to traffic in the city's core business area. The Historic Main Street District in the heart of St. Charles is the site of approximately 75 festivals and special events, drawing crowds from hundreds of miles. The two largest festivals, July 4th and Little Hills Festival (in August of each year) will have attendance of nearly 100,000 people. The city's Historic District and Frontier Park are daily attractions for tourist traffic from outside the city. St. Charles contains its own convention center, hosting a variety of national/regional conventions and seminars. The St. Charles Family Arena is an event-style facility with seating for over 11,000 and hosts concerts, sports and entertainment programs. Although not in the city limits, the direct route to the facility is, and traffic control is always a labor intensive issue. The Ameristar Casino is contained in the city limits and draws 10.5 million visitors annually from far beyond the City. Aside from gaming, the casino hosts sports and entertainment programs, and is one of the city's biggest employers. Lindenwood University, within the city limits, provides education and boarding to a large national and international student body w/ a residential population of approximately 3500 students and 6,000 commuters.

Agency response

It is unfortunate that our disparity index is based upon the population demographics of the City of Town and Country, which has a population of approximately 11,000 people with an African American population of 1.98 percent. Nearly 400,000 motorists travel through our city limits each weekday with the second most voluminous interchange in the state (Interstates 64 and I-270). Our motoring public is reflective of the demographics of the state and St. Louis County, which are comprised of African American populations of 10.25 and 19 percent respectively. The traffic stop data for Town and Country Police Officers indicates that only two percent of the motorists stopped are residents of Town and Country. The natural implication of this statistic is that the ratio of the race of motorists stopped for violations would reflect state and county demographics, not the City of Town and Country. The Town and Country Police Department is committed to the fair and impartial application of the law while attempting to maintain a safe environment for all people who travel in and through our City limits. A careful examination of the data indicates that our practice matches this policy.

Agency response

We are very unique in our population because of our role in the community. We are a University Police Department with approximately 12,500 students and another 3,000 faculty and staff personnel. Our student population is a diverse cross mix of international students and local community participants. Furthermore the "transient" or "passing through" driving population is such that it cannot be measured. There are no real community standards, or city to base our population on that would be an accurate depiction of our University. In addition, the amount of visitors to our campus for various functions also cannot be measured. It is unknown what percentages of stops are made on University related people, and the number that is just because of happenstance.

RACIAL PROFILING DATA/2007

Agency: Uplands Park Police Dept.

Population: 381

age 16 and over
